

ROSES AND POLKA DOTS

This striking version of Mary Rose's New Rose design is this Autumn's most admired new design. The sparser black and white background seems to emphasise even more the colours of the roses. Here shown on Fat Vase and Paperweight. LINKS:-

WEAR YOUR HEART ON YOUR BOWL

Two new pieces to have joined Mary Rose's ever lengthening list of styles. The first is this Heart Footed Bowl which is essentially a Rose Footed Bowl with different feet, but unexpectedly it looks much grander and

larger and cries out for gold. Another piece is the flared Candy Dish here shown edged with a crown; it has a pronounced base and a flared rim

ALSO NEW STYLE OF DOOR KNOB

This is a much more conventional shape but features the chandelier bead-type colour way. Thanks to Clay

LOOKING FOR LADY GAGA

Mary Rose was contacted by Lady Gaga's publishers and asked

to create a cup and saucer for be-fitting the beverage loving Superstar. Somehow the idea petered out at the publishers end – they never supplied a shipping address - and this wonderful piece is sitting here

yearning for its rightful owner. If anybody reading this message has ANY idea where she is please tell!

COMMEMORATIVE PLAQUES

If you've been looking to immortalise somebody's hand or foot print in a glazed clay plaque, then we have been brought up to date by a very nice lady called Michelle and her son Oliver. You can come and visit and get casting.
